# SOLAR HOT WATER STC ASSIGNMENT FORM

Page 2 of 2

Fax: 02 4868 1083 Email: renewableenergy@dux.com.au

### **\*TERMS AND CONDITIONS**

To be eligible for small-scale technology certificates, solar water heaters including air source heat pumps must:

- be listed on the register of solar water heaters
- be installed no more than 12 months prior to the creation of certificates, and
- be classified as small-scale, and a:
  - solar water heater with a capacity up to, and including 700 L (solar water heater models over 700 L capacity require additional documentation to be eligible for certificates), or
  - o air source heat pump with a capacity of no more than 425 L.

Make sure you retain all documents which relate to the installation for a period of five years, which may be requested by the Clean Energy Regulator.

Certificates may only be created once during the life of the installation and they must be created within 12 months of the installation date.

- By signing this form, I assign the rights for this installation to create Small-scale Technology Certificates for the above system to Dux Manufacturing Limited T/as EcoSmart Hot Water in exchange for:
   By mont to be received by me which is equal to the yalue of the Small scale Technology Certificates created from the
  - Payment to be received by me which is equal to the value of the Small-scale Technology Certificates created from the installation of the solar hot water system, or
  - a. The discount that I received on the purchase of the solar hot water system which is equal to the value of the Small-scale Technology Certificates that will result from the installation of the solar hot water system.

Where I have received a discount on the purchase of the solar hot water system, I acknowledge that Dux Manufacturing Limited T/as EcoSmart Hot Water will pay an amount equal to the value of the Small-scale Technology Certificates that will result from the installation of the solar hot water system as Lipschild on the province page.

3. installation of the solar hot water system as I have indicated on the previous page.

I understand that I will not be able to sell or assign to anyone else my rights to these certificates and any other rights that may be associated with the reduction of greenhouse gas emissions.

4.

7.

Where I am registered for GST, I understand that any payment made to me is inclusive of GST and is for the assignment of my rights.

- 5. I agree that I will not be entitled to any payment if my assignment is invalid or if Dux Manufacturing Limited T/as EcoSmart Hot Water cannot create or register the certificates. If payment has already been received by me, I agree to reimburse the full amount
- 6. to Dux Manufacturing Limited.

I agree that the Clean Energy Regulator and/or Dux Manufacturing Limited T/as EcoSmart Hot Water or its appointed agent can inspect my system within the first five years of operation.

I have checked that the details on this form as well as the installation report are correct.

8. I understand that the information on this form will be made available to Dux Manufacturing Limited T/as EcoSmart Hot Water and Clean Energy Regulator and the Australian Tax Office but will not be used for any other purpose but to create, check or audit
 9. Small-scale Technology Certificates or to verify eligibility under the SWH Rebate Program.

I understand that there may be penalties applied for providing misleading information in this form under the Renewable Energy (Electricity) Act 2000.

- 10.
  - From 17 August 2015 I will be required to provide, upon request, documentation to verify small-scale technology
- certificate creations in the REC Registry for solar water heaters and air source heat pumps.
- **11.** `

#### In order to calculate the number of certificates applicable and the certificate value, please contact EcoSmart of 133 326. Further information regarding STCs can be viewed on www.cer.gov.au
